

# Neutral International Commission To Probe Bombings Considered

**MOVE PLAN IN  
EFFORT HALT  
LOSS OF LIFE**

**Boy Snatched  
From Crib**

**Undersecretary For Foreign Affairs Discloses Idea to Commons**

LONDON, June 4.—Great Britain is to send a delegation of newspapermen and a neutral international commission to investigate bombings in an effort to halt terrible loss of life in air attacks on Spanish cities.

Richard Butler, parliamentary under-secretary for foreign affairs, disclosed his plan to the House of Commons. He said it was believed Britain would go ahead if there were any cooperation of German bombers.

**WORLD OPINION**

Mr. Butler told the house the idea was for the commission to report whether Spanish objectives were valid targets of bombings and leave its findings to "the world opinion" with which we regard the situation.

Earlier, Prime Minister Chamberlain announced new protests against air bombardments both in Spain and China. The demands of the opposition Britain do something besides "hold up her hands."

**PROBE AT SCENE**

Mr. Butler said he believed "much can be done by the force of public opinion" and that Britain was prepared to send a small, semi-independent commission "to make impartial investigations at the scenes of air attacks."

Because of numerous attacks on British ships in Spain, the prime minister has been attempting to create "safety zones" in Spanish government ports.

Continued from Page One  
in addition that the government was successful in obtaining a reduction of interest rates on all farm mortgages in Saskatchewan, the rates being reduced to six per cent from January 1, 1938.

### SETLEMENTS MADE

In addition the government succeeded in effecting a settlement which will result in a substantial unpaid interest to date, and also wiping off and cancelling of all unpaid debts of the government since 1933 and the cancellation of all charges for seed grain advances made by provincial governments the whole totaling some \$100,000,000.

### LEADER'S PROMISE

Conservative leader J. G. Diefenbaker has demanded the abolition of the two per cent sales tax, proceeds of which are earmarked for the reduction of interest rates on provincial and municipal debts.

Mr. Diefenbaker said that the proposed cuts in the highest interest rates now prevailing, that the proposal is to tax the interest rate down to 3 per cent in the case of pro-

municipal bonds and to 3½ per cent in the case of municipal bonds.

"We will negotiate with the bond holders, but if negotiation fails, then we will take the responsibility on ourselves which will scale it down to the three per cent basis," he said during the campaign.

Reduction of auto licenses to \$10 for new cars and \$8 for old cars and a system of state health insurance will be introduced by 1939, a year after the Conservative platform is pledged against amalgamation of the provinces.

**C.C.F. INTENDS**

C.C.F. leaders are also advocating abolition of the two per cent sales tax and the nationalization of finance and industry, but state that a little later in the campaign the party's safety increased to \$10,000 ransom money paid by him, his brother, and his station manager, who failed to return to him his return as promised by the kidnappers.

## U.S. PLANES TAKE PART IN KIDNAP HUNT

**Case Of Stolen Jimmy  
Cash Is Still Unsolved**

PRINCETON, Fla., June 4.—

Grief-stricken James Bailey, 10, was found dead in his bed-room last Saturday.

He had been missing since

July 27, 1937, when his parents

and two persons who had rented

rooms for the blind fire-eater

boy snatched from his bed-room last Saturday.

PRINCETON, Fla., June 4.—

Federal agents frantically ran down a dozen new leads in the search for the body of Jimmy Cash, 10, as search for the boy extended south to the Canadian provinces.

Sixty persons who had rented

rooms for the blind fire-eater

boy snatched from his bed-room last Saturday.

LOCH MONSTER  
NOW TO HAVE  
MUG FLASHED

EDMONTON, June 4.—The

Loch Monster, a condemned

murderer, was unmasked

as the man who had been questioned.

John H. Hooper, director of the

Alberta Department of Justice,

said the monster, Captain D. J. Munro of the Royal Canadian Mounted Police, said the

conservative was being supported by the Liberal candidate, while C.C.F. supporters were shocked at Alberta's refusal to co-operate with that party and are giving him

no support.

**TOT IS FOUND  
FAST ASLEEP  
IN DOGHOUSE**

COMMERCE, Alta., June 4.—The

four-year-old daughter of Mr.

and Mrs. Thomas Cook was

found dead in a doghouse

in the back yard of their home.

The youngster disappeared while on route home from the post office, where she had been buying

postage stamps in the name of

James Bailey, 10, who had been

snatched from his bed-room

last Saturday.

**Anti-Fascist  
Demonstrators  
Shy Tomatoes**

TORONTO, June 4.—Police re-

quested to break up an anti-Fascist demonstration planned for a small hall in the west end of Toronto last night. Detective Jean Stillwell was struck upon her arrival with a pistol sign before the crowd of demonstrators, who dispersed. Two men were arrested.

A crowd of about 200 and 300 men in the crowd they said was attempting to break up a meeting of the League of Fascists, who were to be leaders of Toronto Fascists, was showered with tomatoes as he arrived to address the meeting and again to speak. The police, who had mounted, were called to the scene.

**Tourist Agent  
Killed In Fall**

QUEBEC, June 4.—Tourist agent was killed today when he fell from the deck of the *Duchess of Richmond* to the concrete wall of the pier at Wolfe's Cove in Quebec harbour.

## Road To Alaska Through Canada Plan Considered

Continued from Page One  
Highway Said To Be Feasible—Would Open Up New Timber, Mineral, Agricultural Resources.

By STUART UMBRELL

Canadian Press Staff Writer

VANCOUVER, June 4—Sturdy country roads and trails already connect Alaska and the Yukon Territory, but the land route to the north ends in Hazelton.

Government has the whole territory of British Columbia.

Today, however, plans to drive the highway through the interior of the province are being discussed.

Premier T. E. Patullo's recent proposal to loan \$150,000 to the United States to help build a trans-Canada highway from coast to coast is being studied.

Today, however, plans to drive the highway through the interior of the province are being discussed.

It was in 1930 that the United States government appointed a commission to study the proposed road to Alaska. Its report, issued three years later, found the highway to be a feasible project.

# Amendments to Indian Act Will Stand Over for Revision of Terms

## MINING LEASE SECTION WILL BE CONSIDERED

**Opposition Urges Hon. T. A. Crerar Redraft Part Of Bill**

Ottawa, June 4.—Amendments to the Indian Act received second reading in the House of Commons Friday, but critics in committee of the whole led Hon. T. A. Crerar, minister of resources, to urge that no revision and possible incorporation of suggestions made by opposition members.

The amending bill contains two sections, one designed to permit granting of mining leases on Indian lands, the other to legalize government loans to Indians and Indian bands to assist them in agriculture and other pursuits.

**DRAFT SECTION**

Mr. Crerar was urged to redraft the first section. It was charged that the section was forgotten it was at the request of the Indians and was too much concerned with possible operators of mineral development.

Rt. Hon. R. B. Bennett, A. W. Neill (Ind. Coopers-Alberni), Grote Stirling (Conserv.-Alberni), H. H. Stevens (Recon., Kootenay East) and J. S. Taylor (Ind. Nanaimo), questioned the miners' ability to hold the lands would actually be granted, if it would be necessary for the Indians to surrender their rights before a prospecting license was issued, and what return they would receive.

**TO STAY**

Mr. Crerar said it would be difficult to draft an act stating definitely what return would accrue to the Indians if paying development costs were to be left to the Indians. He agreed to reconsideration.

Mr. Crerar said the obvious course to pursue would be to set up a basis of operation, to which the Indians could subscribe. He added, so a prospector going on an Indian reserve could know exactly what he had to offer if he struck paying prospects.

Mr. Stevens said the act should contain a schedule of minimum royalties to be paid by the Indians if mines were developed. What was done, he said, should protect the rights of Indians.

## SCHUSCHNIGG AND COUNTESS WED BY PROXY

Continued from Page One and considered one of the most beautiful women in Vienna.

### DAILY COMPANION

The couple's daily companion at Hitler's palace until his removal last Saturday to an undisclosed place.

Today, it was believed, even she did not know where her husband was being held. It was reported he received a letter from the kidnappers dated only Vienna, which said:

"By this time we should be married and happy. The man you have been talking about is our son."

After the ceremony she told a friend she expected her husband soon to be released and return to their apartment she took in downtown Vienna.

### Moved IN TAXI

She told the friend she and her husband were "poor." To save expenses she moved her truck and other household belongings with her in a taxi.

Both had been married before. The first marriage of the countess, mother of the kidnapper, was nullified. Von Schuschnigg's first wife died in an automobile accident, leaving her two sons.

A taxi driver, it was said, the former chancellor was held in the Vienna headquarters of the Gestapo, while his wife was held at a Metropole hotel, supposedly in a suite of his own.

The countess was sent von Schuschnigg under examination, the outcome of which probably would decide his future.

## Two Killed By Lightning On Golf Links

KANSAS CITY, June 4.—Sportsmen were killed, a third was severely injured and a caddy was less seriously hurt Friday when a lightning bolt struck during the first round of Kansas City's \$10,000 golf tournament. More than a score of United States first flight golfers were among the 120 entrants.

## Civil Defence Being Studied

OTTAWA, June 4.—Defence of the civil population of Canada in the event of enemy raids is being studied by a committee in the department of national defence. Ian MacKenzie, defence minister, told the House of Commons last night that the committee, headed by Grant MacNeil (C.C.P.-Vancouver North). As the committee has not yet reported the minister was unable to say what steps would be taken.

Smithfield, London, is the largest and oldest meat market in England. It has an annual turnover of 500,000 tons, including eggs, meat, and poultry.

## One In A Hundred

Jean Rouverol is one girl in a hundred. For the 21-year-old stage actress, being selected from that number of girls in Canada to play the part of "Baby Carter" has been known to "One Man's Family" listeners for years, but in name only. A few months ago Carlton E. Morse, author of the radio serial, planned to give her a role, and Miss Rouverol was picked to do it.

## John L. Lewis Refuses Join Union Act Inquiry

WASHINGTON, June 4.—No sooner had President Roosevelt announced his intention to propose trade union laws Friday than John Lewis, head of the committee for industrial organization, refused to have anything to do with the legislation.

Anxiety kept the study to be used to bring about changes in the law, which the unions had asked the refusal, Lewis indicated.

He stuck to his "boycott" of the investigation, despite a specific

request by President Roosevelt that it would have nothing to do with possible changes in the Wagner Act.

Mr. Roosevelt told reporters the study to be made by a special commission he will send to England this summer, is designed to "assess the situation" in the United States about the British law.

The American Federation of Labor, arch enemy of the C.I.O., also was invited to participate in the study and agreed to do so.

## STUDENT STRIKE OFF WHEN HEAD ENDS SERVICES

TRANScona, Man., June 4.—The on-again and off-again students' strike at Transcona central school ended yesterday, apparently over as scholars returned to their classrooms.

The strike began Tuesday in this town nine miles east of Winnipeg, was deemed dead when Principal Dunc A. Baxter accepted the ruling town's school board's request for his resignation.

On Friday more than 200 pupils called off the strike in be-cause the school board would take the blame for the strike, which began Tuesday in this town nine miles east of Winnipeg, was deemed dead when Principal Dunc A. Baxter accepted the ruling town's school board's request for his resignation.

The strike had been on for nearly a month, and was called off after the demand for Principal Baxter's resignation. The next day the strike was again as the board ignored the protest.

Friday, however, Principal Baxter announced he had received his wife's resignation and was leaving Transcona. His wife, Mrs. Dunc A. Baxter, had been elected to the board with Mrs. H. G. McCreary of Hanna, Mrs. H. G. Sharpies of Calgary and Mr. G. McCreary of Medicine Hat.

Mr. McGarry again heads Drumheller Music Festival

WICHITA, Kan., June 4.—The inclusive Education Bulletin of the Drumheller Music Festival, which Mr. McGarry will head the Drumheller Municipal Festival Association for the ninth successive year, was issued yesterday.

Mr. McGarry, who has honorary vice-presidents, Entries secretary is Mrs. C. G. Richards, Wichita, Mrs. R. W. Walker, while the band director is composed by Japanese priests and amateur Canadian undertakers.

It was formed a "very simple" organization, but Japanese residents of Vancouver and the whole Fraser Valley farming district.

Hundreds were crowded into the wooden temple, many bringing with them their instruments and musical costumes.

Mr. W. S. Smeal, Miss G. Richards, Miss J. McVeigh, Mrs. A. W. Anderson, Mr. H. Hart, Mr. E. McCreary of Hanna, Mrs. H. G. Sharpies of Calgary and Mr. G. McCreary of Medicine Hat.

Mr. McGarry again heads Drumheller Music Festival

PICTOU, N.S., June 4.—A 25-year-old worker and his four-year-old son, both of whom were hacked to death with an axe, were found dead. The dead were Paul Barlow, the lumberman, and Paul E. Cullen.

A man called by Barlow's terrified wife found the bodies at the foot of a steep hill near their home. Their heads had been split by the axe.

The top floor of the three-story building were gutted, and the ground floor damaged by smoke and water. They had been in the building constructed in 1880 were evacuated without difficulty.

Barlow, a lumberman, and his four-year-old son, both of whom were hacked to death with an axe, were found dead. The dead were Paul Barlow, the lumberman, and Paul E. Cullen.

A man called by Barlow's terrified wife found the bodies at the foot of a steep hill near their home. Their heads had been split by the axe.

The top floor of the three-story building were gutted, and the ground floor damaged by smoke and water. They had been in the building constructed in 1880 were evacuated without difficulty.

GEORGE TROOPS ON SYRIAN BORDER

PICOU, N.S., June 4.—French troops were gathered near Turkey's southern border with Alexandria, a small town in France's eastern mountains, to aid Arab-Turkish rebels led to a protracted period of martial law.

The rebels had organized a determined plan for a plebiscite to determine whether the district should be Arab or Turkish. Georges Bonnet and the Turkish ambassador, Said Davatz, indicated they hoped for peaceful settlement of the quarrel.

## LEADERS ARE IN AGREEMENT ON RAILWAYS

Continued from Page One without regard to the whole of Canadian economy. Mr. Bennett thought that some planning might be necessary but it was dangerous to apply it to one phase of the nation's economy without a logical plan for other phases.

### RETROGRADE STEPS

Hon. H. H. Stevens (Recon., Kootenay East) regarded the measures as retrograde steps designed to interfere with railway rates.

On the contrary, said Mr.

Howe, it would have the effect of creating a more efficient transportation system, which would mean cheaper transportation. He was unable to understand why regulation should be a bad thing for water transportation and a good thing for railways.

Parts one and two of the bill deal with the opening up of Canada to foreign transport commissioners in place of the present board of railway commissioners and with the regulation of waterways. They were approved in committee of the whole.

Other parts dealing with air transport, ports and harbors and traffic

continued from Page One

interests of the two Liberal candidates in Regina, P. M. Anagnosoff, of Regina, and D. B. Hogarth, of Moose Jaw.

Discussing the bill in open session, Mr. Gardner saw Great Britain, and the Empire of which Canada forms a part, as playing the leading role in the world's shipping and world.

On the outcome of the trade agreements now being negotiated, he said, "I am afraid it will not only not the whole future course of Canada and the Empire, but it will affect the world itself."

**HOUSING SCHEME**

A low cost housing scheme was to be provided for by the Ottawa government by setting aside the sum \$500,000 for the first year, and as much more as the government could obtain an additional amount from the provinces and urban centres, said Mr. Gardner.

Such a plan would probably entail some measure of control, he said, but such charges were not exorbitant, he added. The scheme is intended to give stimulus to construction in the building trade.

### SEEDS DANGER

Mr. Bennett saw danger in placing the entire transportation in the hands of transport commissioners in place of the present board of railway commissioners and with the regulation of waterways.

Mr. Howe said the bill was less able to meet the needs of Canada than other countries.

Mr. Bennett was referring to the changes in the rail transportation service which were to be affected by the proposed regulation of railways.

Mr. Howe said the bill was less able to meet the needs of Canada than other countries.

Mr. Gardner indicated to another member of parliament that over a period of possibly six years, the bill would be a good impression on the building trade.

### Aberhart Urges

Unité With Alberta

MARLIE CREEK, Sask., June 4.—Premier William Aberhart urged his supporters to unite with his own province of Alberta in a "fight against financial tyranny" in Canada.

An action crowd of 1,500 heard him outline the Social Credit doctrine supported by 41 candidates for provincial legislature.

Polling day is June 8.

### CRUSHING THE PEOPLE

The money power is crushing the people of the West, Mr. Aberhart said, and the people are compelled to unite in a crusade of self-delivery. He said Saskatchewan should follow Alberta and elect a government which will give the people a lower cost of living and more purchasing power.

He outlined the Social Credit program which had been circulated in Saskatchewan. He was connected with the Nazis, he said. Nazis had been with his own province of Alberta in a "fight against financial tyranny" in Canada.

He said the Nazis had been defeated in democracy, not dictatorship.

### PROTECT THE PEOPLE

"I have a simple idea of Alberta that I can't tell you. I don't give them what they want," he added.

Mr. Aberhart quoted Hon. J. G. Gardiner, former minister of agriculture, as saying that the people of Saskatchewan would remain honest. "I have been wondering what would happen if FDR had been making a contrast between the people and the government."

Dr. J. L. Robinson, Social Credit candidate for the constituency of Medicine Hat, said the Alberta government was the only one in Canada not run by the banks.

### Blackmore Gives Jobless Assurance

REGINA, June 4.—H. Blackmore, leader of the Social Credit group in the house of commons, Friday promised a Calgary single unemployed delegation of five to meet him in his office to discuss the best possible course to take in helping the jobless in Alberta.

The promise was given at the end of his address at a meeting attended by about 200 people.

The delegation, headed by W. D. Robinson, vice-president of the Single Unemployed of Calgary, came to see him to discuss the problems of the jobless in Alberta. Mr. Blackmore assured them that he would do all he could to help them.

Mr. Blackmore spoke on Social Credit theory and made brief references to the Saskatchewan election.

J. H. Crawford, Regina Social Credit candidate, was present at the end of the meeting.

### Liberals Will Protect Farmers

WANSAWA, Sask., June 4.—A plan to help farmers from creditors this fall if crops were normal, Hon. W. J. Ross, federal minister of agriculture, said at a news conference in a Saskatoon election campaign speech.

Mr. Ross stressed the difficulties faced by the Liberal government during the last four years and declared the education law was distinctly traceable to that party.

The plan, he said, gave government revenue had fallen making it necessary to impose the tax. He assured the farmers that the new law of the tax, less costs of administration and collection, went for educational purposes.

He emphasized, while touching other parties' platforms, that a provincial government dealt only with provincial affairs.

## Mr. G. Swallow Is On Executive Canadian Clubs

MONTREAL, June 3.—Delegates Friday elected H. Panet Raymond, Montreal, president of the Association of Canadian Clubs and decided to make the annual convention in 1940 in Victoria, B.C.

Mr. Swallow, of Edmonton, and J. B. Corbett, of Vancouver, were elected vice-presidents. Committee members included Mrs. H. L.

Campbell, Victoria; Mr. Justice A. G. Dewart, Winnipeg; Mrs. G. Swallow, Edmonton, and J. B. Corbett, of Vancouver.

### Tory Delegate

CALGARY, June 4.—Kreis H. Campbell, Tory delegate, will represent the Calgary Young Conservative club as a delegate to the national convention in Ottawa early in July. Mr. Kreis, a former Alpine skier, was elected to the legislature in 1935 and has been a member of the legislature ever since.

Mr. Kreis gave a majority of the 1,000 against the compulsory pasteurization bylaw.

The 100 who gave a majority of the 1,000 in support of the bylaw, ahead one hour.

### Pasteurization By-Law Opposed

MOOSE JAW, Sask., June 4.—In completed returns of two Moose Jaw plebiscites Friday indicated citizens of Moose Jaw voted against compulsory pasteurization of milk for dairy production.

Out of the 1,000 votes yesterday gave a majority of 1,000 against the compulsory pasteurization bylaw.

The 100 who gave a majority of the 1,000 in support of the bylaw, ahead one hour.

### MAKE A GOOD FIRST IMPRESSION

—Dale Carnegie

Author of the famous book

How to Win Friends and Influence People

• Today the world moves fast, people haven't much time to study and analyze other people. That is why first impressions are so important and so lasting.

Success is usually won by men who possess the ability to talk well, impress people, sell themselves and their ideas quickly."

• It is astonishing how little you need to do—say—to make a favourable first impression. Think back to the last occasion when someone you met for the first time made a strong impression on you.

"The chances are he said very little—but what he said was just right. He was sincere, assured and self-possessed."

• If you want to make a good first impression, be natural in word and gesture. Don't be affected. Don't try to dramatize yourself. An employer is experienced in judging men and he is but rarely deceived by appearances. What he sees in you is the result of what he sees in you. And the first things he looks for are honesty and honesty.

• You want to make a good first impression, be natural in word and gesture. Don't be affected. Don't try to dramatize yourself. An employer is experienced in judging men and he is but rarely deceived by appearances. What he sees in you is the result of what he sees in you. And the first things he looks for are

honesty and honesty.

### Have You Smoked a Turret Lately?

TURRET Cigarettes make a splendid first impression on nearly everyone who tries them. Because of the mild, cool, satisfying smoke they give—and because Turret quality never varies. Turrets are made from choice Virginia tobacco blended to an original and unique formula, which makes Turrets just that much different—just that much better. Smokers say the handy calendar on the back of every Turret package is a great convenience, too. If you haven't smoked a Turret lately, try a pack today.

Imperial Tobacco Company of Canada, Limited

SATURDAY, JUNE 4, 1938

## That Wouldn't Help

Mr. Bennett advised the Government to ask the "idle and unemployed persons" who have been camping in the Vancouver post office to get out, and to have the police put them out if they did not go voluntarily. The advice is characteristic. It helps to explain why Mr. Bennett is no longer Prime Minister, and why the voters were well advised in retiring him.

If the "idle and unemployed persons" were ejected from the post office they would still be idle and unemployed, with no jobs, no money—and no shelter. At present they at least have a roof over their heads, and a chance to rest as they can on the marble floor. Would turning them into the street make for peace, order and good government?

The way to clear the post office and do it to public advantage is to tell the invaders where they can get jobs. The Government, it is to be hoped, will decline the advice to make a bad situation worse by putting them out, idle and unemployed, onto the sidewalks.

## Not a Dissenting Voice

The members of the House of Commons gave unanimous approval to Mr. Dunning's proposal to lend \$30,000,000 of 2 per cent money to municipalities, with which to carry out selfliquidating projects. For which the fair-minded public will credit the members collectively with having a more realistic view of conditions and a more liberal attitude toward money matters than they were suspected of.

This means something more than that the Commons will vote the money. It almost certainly also means that there will be no organized opposition in the Senate. Should the Senators also give unanimous consent, that will be one of the political wonders of the age and the most significant sign yet of the breakdown of financial supervision.

While unanimity in the Red Chamber may be too much to look for, it can be taken for granted that the bill will be passed by both houses, that the money will be advanced, and that municipalities from one end of Canada to the other will get busy during the summer extending utility services and carrying out other undertakings which will add to their assets while giving work and wages to now idle residents.

Mr. Bennett could not pass the opportunity to say something of the kind should have been proposed sooner, nor Mr. Stevens to say the vote might have been much larger. There is merit in both criticisms, though they come under the heading of happy after-thoughts. Neither critic has been very busy since parliament met suggesting employment schemes, and in four years of office together they never even evoked anything approaching the usefulness of 2 per cent municipal loans.

Thirty million will not enable the municipalities to catch up the arrears of construction which accumulated during years of depression and "sound money" restriction. But it is a sizable sum with which to start the experiment of federal loans. If the municipalities spend the money wisely there is no reason why they should not get more next year. No reason, in fact, why federal loans at low interest should not become the permanent source from which the municipalities can obtain money for approved worthwhile capital undertakings in future.

## \$50,000,000 for New Houses

Hon. J. G. Gardiner's announcement shows the Dominion housing loan scheme to be better, much better, than the somewhat confused and confusing earlier dispatches suggested. Housing loans will not exceed the \$30,000,000 to be provided for loans to municipalities. A special fund of \$50,000,000 is to be created, from which the loans for house-building will be made.

The interest rate under the present housing scheme has been 5 per cent. The

house-builder will thus have to pay only half as much for a loan as heretofore.

There will be the further, and even greater advantage, that loan money for house-building will now be available. It has not been available in this province hitherto, and the building activity in other provinces has not shown that the available funds were at all in keeping with the need of houses.

The private investor has not been interested in lending at 5 per cent. The Government has therefore been forced to adopt a loan policy or let its house-building scheme drag and the construction industries go idle. In a sense the unwillingness of the private lender to accept 5 per cent may be credited with having brought Government loans at 2½ per cent.

That the \$50,000,000, and a good deal more, will be required to bring the supply of houses up to present and urgent requirements is beyond any question. Albertans, who comprise less than one-tenth of the population of the Dominion, could use more than a tenth of this sum without bringing housing conditions in the province up to a reasonable normal. Where population is more dense the need of slum-clearing and house-building is correspondingly greater.

There is no way in which \$50,000,000 could be spent to give more employment, direct and indirect, than in building houses. Therefore no way in which it could be more effective in reducing unemployment.

The interest rate is pegged at a figure which will make the loans repayable over a reasonably short period. The validity of the loan plan is thereby assured; borrowers will not be kept poor paying high interest, and will thus be able to pay the principal.

## Editorial Notes

The Union Nationale candidate won in the Chateauguay by-election by a large majority. Apparently Quebec people are not as much afraid of being "Fascized" by Premier Duplessis as people outside Quebec think they ought to be.

Australia would like its trade agreement with Great Britain revised in terms more favorable to itself. British interests protest that Australia already has the better of the bargain and that the revision ought to be in the other direction. The agreement, like that between Canada and Great Britain, was based on the proposition that neither country wanted to admit the products of the other, but would do so as a great favor if a good round tariff tax were paid at the customs' offices, or if the amounts to be admitted were restricted by "quota" regulations. Naturally a "row" resulted in both cases.

**Fifty Years Ago**  
From the Files of The Edmonton Bulletin

The Derby was won by Ayrshire, owned by Mr. T. F. Tamm, and tamed by the experienced Mr. Jackson.

A meeting of the Irish land leagues held in Dublin to discuss the Pope's rescript forbidding bishops to pay tithes to the Church—while unreservedly acknowledging the spiritual jurisdiction of the Holy See, we as guardians of these civil liberties, which our Catholic friends have claimed, feel bound to solemnly reassert that the Holy See interfere with the Irish people in the management of their affairs."

In view of the Banff sanitarian has been nominated to represent the North West legislature for the Red Deer constituency.

## Thirty Years Ago

Outrage—a survey party under Mr. Marier is sent to lay out the location of Fort Garry, the terminus of the proposed railway in Hudson Bay.

The electric wiring of the first five miles of the street is being installed.

A. J. Ross is to be acting city engineer in place of Mr. Reedy.

Cave Lake, S.D.—The Chicago, the largest lake in the world, landed here after a journey from Quincy, Illinois, which occupied eleven days. The vessel travelled at the rate of seventy-five miles per hour.

To have a more just and complete show

Peking—Chung Yen Lin, a leading Peking army general, has been badly defeated by the nationalists.

## Current Comment

### Better Than Relief

It would be in the best interest for the Canadian government to go in for "pump priming" and job-creating work on a proportionate scale to the United States program under Mr. Roosevelt. There is an artificiality, as well as terrific material price, to the United States recovery program.

Yet, what the Canadian government is proposing in allocating an additional \$40,000,000 in the supplementary estimates for the fiscal year ahead for work projects seems within the bounds of moderation. It is intended to use the money to help the house-building industry, to help for level crossing elimination at railway intersections, for airport improvement, for the construction of homes at low rental costs and for other purposes.

The whole thing is aimed at attacking unemployment. It may well prove also an attack on a very questionable system of looking after the unemployed—that of maintaining them on direct relief without the slightest attempt to get them back into the labor market. The whole scheme is aimed at attacking unemployment. # Working Men, Women of Washington State Operate Credit Unions

## This Man, Joe Murray

By WILLIAM CORCORAN

**CAST OF CHARACTERS**  
JOE MURRAY liked new places.  
NEW JOB, new girls.  
**HELEN**, fell in love—hard—once.  
**THEY**, married, found love—and  
kept it.

Yesterday Helen is killed and Joe never goes home. He leaves Syria, moves to New York, gets a job again, writes home he is in Alaska again.

**CHAPTER III (Continued)**

He fell into the work because that's what he wanted to do, and he could not help being good in that line because his hands were quick and he had a natural aptitude for that work metal gave him a certain pleasure. He liked the air and atmosphere of those shops by day, and at night he liked the quiet, he liked the clean crisp sound of metal shearing in the clip of the hammer. He liked the heat of the coke hearth or a blow torch, the acrid smells of hot lead and tin and zinc. He liked the dented walls, the shiny surfaces of white, unwarmed sheets of virgin metal ready to be cut and bent and twisted and warped. He liked the look of lovely shapes by the hands of an adept at the art. He went from shop to shop, each time adding to his special effort, because good men were appreciated in a shop. Yet he just blew like a tumbleweed, out of one job into another, out of one town into the next.

"What's the difference?" he wrote his remonstrating mother. "I can always get another job. I don't care if me every time if I get tired. It's tiring to get tired of it. That's all, and I blow myself up. I'm not a good boy. I'm a boarding house yet that was any better than the next one I show into." Then he might add with, "I'm not a good boy, but you know I wouldn't know what to do with it if I did. Here's ten buck for your self, and I'll be back in a week." Worrying till turn out right side up as always. I'll write from Albuquerque, New Mexico, and have a chance to look the place over."

**CHAPTER IV**

Joe drifted, alone, and he was indifferent to where he was, but you must not think he was mournful or morbid. That wasn't in him. A sense of loss, of course, caused to guess that something had gone out of him for his cause, but he was not really aware of it. He had changed. He never looked long for sympathy. He made friends easily and he drew women to him without trouble. There was a time between Joe and other people until they came to cross the line that he became more and more reticent, more timid, confidential and the women clinging and tender. Then he became suddenly erratic and if there was any reason for his change, he was crazy and a little cruel. When that happened, he blew the town immediately, and he did not wait till it happened.

And if that isn't that's what's exceptional about Joe Murray, just look around you. You can see them here and mark those who either rule themselves rigidly, or if they let themselves go, let themselves go with mood swings and erratic ways that their friends cannot understand, no matter how they sympathize with them. Good people, good kind people—but lonely. That's all. In the midst of friends, which is more important than anything else, he was a stranger, because it's more hopeless. Loneliness is the bane of man, and he was lonely, especially during all the time they are alive. Loneliness is deep dark fear, root down, where the roots of all the bad things in life are.

Men and women, who are separated from the other sorts that they have grown to hate, are the ones who are most likely to bleed and they bleed and they are slow to heal. Joe Murray could not have told you clearly, but that was what was wrong with him. When he came close to him, and those roads in their darkness were ever so light, he was a little afraid to gain that short clear to the surface where it caused torment and inexplicable fear. And after he had come close to him, he was happy among strangers, and he was hard and difficult with women. He preferred women, and hard, so he didn't always succeed.

Then one day he turned up at home. And with their own penitential tact the Murays asked nothing except that he would stay. Helen had been sick, and she was slow to heal. She was still at home among them. She was older, quicker, more . . . . And when she had come in, a house where he once had been merely part of the things always underfoot, she had been so glad as if he had never gone away. He came and he went casually, and he

## Goes To Town

Although Andrew Reese, above, lives within four miles of downtown San Francisco, he recently visited the city on business.

During his stay he saw many scenes of white, unwarmed sheets of virgin metal ready to be cut and bent and twisted and warped. He liked the look of lovely shapes by the hands of an adept at the art. He went from shop to shop, each time adding to his special effort, because good men were appreciated in a shop. Yet he just blew like a tumbleweed, out of one job into another, out of one town into the next.

"What's the difference?" he wrote his remonstrating mother. "I can always get another job. I don't care if me every time if I get tired. It's tiring to get tired of it. That's all, and I blow myself up. I'm not a good boy. I'm a boarding house yet that was any better than the next one I show into." Then he might add with, "I'm not a good boy, but you know I wouldn't know what to do with it if I did. Here's ten buck for your self, and I'll be back in a week." Worrying till turn out right side up as always. I'll write from Albuquerque, New Mexico, and have a chance to look the place over."

## 4,500 HAVE FACILITIES FOR LOANS

**Assets Totalling \$145,000**  
Built Up From Small Savings

WASHINGTON, June 4.—Recent survey disclosed that 4,500 working men and women of the state of Washington were providing themselves with saving and borrowing facilities under their own federally chartered credit unions.

The study was made by C. R. Gandy, head of the research section of the farm credit administration, which administers the credit unions.

"During only on the savings and dollars of members' for their capital federal credit unions in Washington have built up assets totalling \$145,000," Gandy said.

Each union maintains its own records of the savings of its members, and extends credit to its members at an interest rate of one per cent or less per month.

"Averaging \$35 in site and equipment, plus a sum covering many months," Gandy said, "these loans have gone far toward solving the credit problems of the low-income families in the parks."

He said dividends last year to shareholders, the contributors to the credit unions, totalled \$18,000, or 12 per cent, in cash.

**PESTS PENETRATE SPRAY BARRICADE**

WINNIPEG, June 4.—Intensive anti-mosquito campaigns have been effective, but golfers and homeowners are finding the insect troublesome on the outskirts of the city.

Winnipeg has produced funds for drainage of swamp areas and clearing of stagnant pools with the help of the city's anti-mosquito department.

But the insects have been attacking golfers on suburban courses recently that were "foreign mosquitoes" that came in from outside the city, Gandy said.

He reported the area guarded by the anti-mosquito campaign had been thoroughly investigated and no flies found.

"But there's still a chance of finding them," Gandy said. "It's not for our campaign that we would be mosquito-free. We want flies from outside points to contend with."

## SALLY SERVICE

Edited by H. MAE MCPHERSON, B.Sc.,  
of the City Light & Water Dept.

**Heavy Terms Are Handled to Bank Robbers**

NEW WESTMINSTER, B.C., June 4.—William and John Wasylchuk, Friday were convicted yesterday of robbery with violence and sentenced respectively to seven and eight years imprisonment by Mr. Justice A. L. Pihl in assize court here.

Each of the accused was sentenced also to a further concurrent term of two years imprisonment under a section of the criminal code dealing with armed robbery.

The trial was held after a Royal Bank of Canada branch at Langley, B.C., was robbed of \$10,000.

Everyone is interested in making better cakes and in trying new cake recipes, but as hot weather approaches, do you sigh just a little at the thought of spending time in the kitchen?

Did you ever wonder what you know about the new electric stoves? Do you have a hot top oven in your kitchen?

Are you using the top of your oven to seal a cake?

Do you have a cream butter softener?

Are you using a cream butter softener?

## With The Railroaders

### ON THE NATIONAL SYSTEM

Jimmy Campbell, carman, has been transferred from the coach yard to the road, taking the place of Charlie Fife, who was moved to the shop.

Arthur MacLennan, car helper, has been transferred from the depot to the coach yard.

Ronnie Spence, apprentice, is still over on sick leave.

George Taylor, bus keeper, N.Y., leaves Saturday for a month's holiday in Chilliwack and vicinity.

Patricia, bus department, N.Y., expects to leave Sunday for a ten-day holiday in Vancouver.

Bob Bainbridge, carman, N.Y., returned to work Wednesday after a week's vacation.

**IS REAL GRAPPLER**

Gil Kinston, son of engineer O. Kinston, is working up quite a reputation for himself.

In his spare time he wrestles the light heavyweight champion of Europe, Mike De Mire, and holds him to a draw.

Fred Williams, apprentice, has returned to the shop and Don Quiggett has gone out on the Big Dipper.

Harry Carlson, carman, N.Y., and Mrs. Carlson left Wednesday for a six-months' holiday in Vancouver.

The annual general service of the five running trades and their auxiliaries is being held Sunday evening at 8 p.m. at the Hotel Alberta on Crescent. United church on corner of 99 street and 106 avenue.

The centers of all the churches will be reserved for members.

**TO SHRINE CONVENTION**

Engines Lyle Bell and Mrs. Bell left Thursday morning for a short holiday in Los Angeles, where they will attend the Shrine's convention.

John Bell, carman, and Arthur Lewis, carmen, have both returned to the car shops.

Dick Dooley, coach yard employee, is away on holidays.

Engines Lyle Bell and Mrs. Bell left Monday for a month's holiday on the Pacific coast.

**FLIES TO FORT NORMAN**

Mrs. McGuire, wife of Engineer "Shanty" McGuire, was a visitor in town last weekend, while her son, new engineer, Mr. Anthony McKenzie, who has just returned from a holiday in Vancouver, left Monday for Fort Norman, where he must spend two weeks flying to Fort Norman to join his husband.

Steve Kladnicki, carman, and Mrs. Kladnicki, returned Sunday from a long holiday in Toronto.

Engines Ernest Stoenhouse, and his wife, have come back from a trip to work out of Miramont. Mr. Stoenhouse will run on recently purchased engine No. 100, which cost \$14,000 and is 18 to Calgary.

George Foley, carman, N.Y., turned in his resignation Wednesday after a short illness.

**PAIGE OLIVA DIONNE**

Charlie Blouin, brakeman, still swears that all twenty checks one of his men is numbering came from a setting of 12 cents.

Hughie Smith, house truck driver, N.Y., received a painful injury when a wrench slipped, cutting his face, but was able to return to work after having the wound sutured.

Mrs. Bill Quigley, wife of North York engineer, left Tuesday for Montreal from where she will sell on the Ansonia on the 10th for a three months' holiday in England.

Jimmy Holden, railroad mechanic from New York, Mrs. Holden returned last week from a three weeks' holiday in California.

### ON C.P.R. LINES

A familiar figure to all Canadian Pacific employees, particularly those in the Edmonton Division, John D. Fenlon, pensioned conductor, passed away at McBride, B.C., on May 26.

Mr. Fenlon, who joined the service of the company in 1883, serving in various capacities, was retired on pension February 1, 1938, and, according to his widow, died at the time of his death was en route to the Pacific Coast on vacation.

Over his long career he traveled to train 63 and 64 between Edmonton and Lloydminster, and he was a conductor and switchman and finally conductor in 1901 on the Medicine Hat division.

During those swiftly moving days of the early west men did not stay in one place very long.

Thomas Bell had risen from a sectionman to a conductor to supervisor and finally conductor in 1901 on the Medicine Hat division.

In 1921 he moved to the Edmonton division in the same capacity.

He remained on the Calgary-Edmonton run from that time until his retirement from the company's service in 1936, and he died in 1938 as an employee on train 126, ex-Edmonton May 31.

Over his long period of service Agent W. H. Walker had made many friends both in and out of the service, who will all wish him the utmost in contentment and happiness during his coming leisure.

Mr. R. J. Noble who just returned from a week's holiday in the Pacific coast and Calgary.

J. Muller and Red Johnson, engineers of McLennan, have been transferred to work train service.

"Knobey" Connie has returned to his summer home at Lac Le Boeuf.

**WILL TAKE SKYWAYS**

Art Knutson, George Besson and Sam Muechelton, watchmen are contemplating forsaking the cars for flying.

Jimmy Gleaton, engineer, has returned to work on train 126 after a three weeks' holiday in Montreal.

**N. A. R. NEWS**

John Haile, section foreman from Busby, retired from service June 1 and has left with his family to reside in Winnipeg.

Frank Wilkinson, N.A.R. brakeman, has returned to work after a short holiday in McLennan.

Frank Doherty, N.A.R. watchman, has been transferred to Lac La Biche.

Eng. R. Lundseth, now in work train service at Chisholm pit.

Henry Seminick, N.A.R. watchman, left town Wednesday to work at McLennan.

A. M. Walker, watchman, has gone to Vegreville to work while Agent F. W. Loring is absent on holiday.

K. A. Campbell of Calgary, recently took over the duties of agent and passenger attendant at South Edmonton.

**AT HAYES HILL**

L. A. Gellinas, C.P.R. reliving agent, is at present relieving at Hayes Hill, where he is on leave of absence for one month.

Alfredus Walker, has returned to Vegreville to work while Agent T. E. O'Meara has gone to Vegreville to work while Agent F. W. Loring is absent on holiday.

P. A. Brane engineer, left town Monday for a short visit in McLean.

The centers of all the churches will be reserved for members.

**TO SHRINE CONVENTION**

Engines Lyle Bell and Mrs. Bell left Thursday morning for a short holiday in Los Angeles, where they will attend the Shrine's convention.

John Bell, carman, and Arthur Lewis, carmen, have both returned to the car shops.

**SEA MONSTER IS OBVIOUS ERROR PROFESSOR SAY'S**

TORONTO, June 4.—Report of an eight-foot sea monster said to have been seen in Lake Simcoe, 50 miles north of the city, was given yesterday by Professor J. R. Dymond, director of the Royal Ontario Museum of Zoology. Professor Dymond said:

"Engines W. C. Hunter has returned to work after his recent illness and by all appearances seems to have gotten younger."

J. G. Fleming, engineer, and Freeman John Scott, have given up their positions with the Royal Ontario Museum of Zoology.

"Knobey" Connie has returned to his summer home at Lac Le Boeuf.

Ed Cunningham, machinist, returned from a week's holiday in the Pacific coast and Calg

ary.

Over his long period of service Agent W. H. Walker had made many friends both in and out of the service, who will all wish him the utmost in contentment and happiness during his coming leisure.

# VACATION

TRAVEL BY B-U-S

SERVICE AND  
ECONOMY ARE  
BUS MOTTOES

New, Comfortable, Modern  
Buses Make Summer  
Travel Fun

Because the people of Canada and the United States liked their policy of better service and lower fares, the bus companies have expanded their business from the struggling "convenience service" days of 1920 to the present. If 15 years ago until today they have assumed a place of major importance among the transportation medium on the continent.

Exemplary of this amazing development is Edmonton's Union Bus Depot, located at the corner of 102 street and 102 avenue, managed by H. B. DeWynne. The first depot was opened May 1, 1930, but

so rapidly did business expand that four years later, in 1934, it was necessary to replace the first structure with a larger one, twice as large as the original depot.

**EFFICIENT SERVICE**

Thirty buses carry an average of 500 persons to and from the Union Bus Depot in Edmonton daily. It is the policy of the company to operate bus companies which cooperate to give the most efficient service possible. Through the medium of co-operation, for a person to travel by bus from practically any point in Alberta to any other point in the country or across the continent and return.

In the early days of bus travel it was travelled by either because it was the only convenient method of transportation to their destination, because it was the cheapest, or the traveller security and comfort—and so have the buses.

No longer is it necessary to accept bus travel for economy. Hundreds of thousands of dollars have been spent developing and designing a bus which gives every possible consideration. They are instructed that it is their duty to see that every bus traveller receives all

the information that he desires and that he or she, as the case may be, is extended every possible courtesy. It is this kind of friendliness which is mainly responsible for the great popularity of bus travel with the public.

Travelling on the highways—highways which have been carefully routed through all the scenic points of the country has been the travelling man's way on their cushioned chairs and view, through the wide vision windows, the beauty of the land. Pictures of particular interest enable the passenger to find the photographs of all the scenes he has spied.

**OPTIONAL ROUTES**

The bus companies are their development in their policy of service, and part of that is their practice which enables travellers to choose their own route. Travellers can oftentimes may travel to their destination on one route and return by another. The bus companies offer tickets and attractive privileges enabling busholders, commercial travellers and others to make the most of their holidays and their travelling time.

The drivers are men of record of safe driving. Each undergoes a special course and has before him always the fact that his passengers are his most valuable cargo. Safety first is the motto of every bus driver. If you are planning a vacation or merely a business trip or a visit

H. B. DeWynne, manager of Edmonton's busy Union Bus depot, is preparing for the busiest season on record in motor coach traffic.

## A Proper Carriage Gets Beauty Honors

**By ALICIA HART**  
"Who's that girl looking at her daughter? Just look at the way she walks!"

The scene was an afternoons past when a man was saying that about a woman guest who just arrived.

Well, he was right, too. Although close to forty-five, the mother did appear younger than her grown-up daughter. Mostly because of the way she walked.

In the first place, her posture was perfect. No hollow in the spine, no hump. She stood with her head high and shoulders square, but not stiffly so. And her back was perfectly straight; her backbone was perfectly straight.

Furthermore, her walk was youthful, like the girl. She moved gracefully, with the grace which is used to a great deal of outdoor exercise, particularly walking. And when you looked at her, you looked at her that she is one woman who doesn't order a taxi or get in a lift, but prefers to go her distance. You felt at once that she has kept her figure not only slender but supple and graceful through years of exercise by doing a few simple set-up exercises regularly.

And her daughter?

With her hair not yet twintight, that girl walked in stilted, awkward fashion. An exaggerated gait, with a bent knee and a spindly column made her stomach protude and her hips seem large. Her weight seemed to bear down on her feet.

She was prettier than her mother, but she wasn't so attractive when she was in motion, either.

Then she learned to appreciate the importance of exercise.

If she puts a premium of beauty on exercise, what must any young girl make to stop going in for any form of exercise the

**PATRON STAR**

Patricia Juste Star is only 85 feet & inches tall, weighs 85 pounds, and wears a Cinderella-sized 1½ shoe. This part, vivacious Thomassville, Ga., but spent most of her life in West Virginia. At 16 she was playing, someone dared her to sing. She was so good that her husband thrived and surprised what she will do with her wife's corset belt and sayings that would send Angel Face from the teacups in triumph and bread pudding.

Charming, Patricia, is given to perhaps not so seriously as growing, but adolescence is given to

## Raising A Family

**BY OLIVE ROBERTS BARTON**

Conflicts are battles we fight with ourselves.

How clear as clear can I make it, but of course there is more to it than that. Often we are not conscious of our conflicts, as they are wages of the surface.

However, it is not the casual conflict that we want out of it. It is the dodging of the issue that does most of the damage. And continuing.

When want to do one thing and another, some-

times we allow the years to go on without getting around to it.

Not that it is always easy to accept the inevitable cheerfully, but the person who can face it, looks quite bearable that have added to its permanence.

Children are a problem, too. Perhaps not so seriously as growing, but adolescence is given to

conflict in other fields.

Perhaps a child is divided in his loyalties, or much choose between two parents, or between two parents but that they quarrel and he feels that he must take sides. He cannot do this, however, in a more wonderful way, he blinks, too. Very possibly he blames one or the other, because he can't decide where his affections lie. He wants it to include both, but he can't do this, as though they were one person.

The young wife shudders though much upon his own record, with many a bad habit, and suggests finds himself unable to decide. He has too little experience and judgment to make a decision, or even to make one. To know what one wants and then try for it.

To prevent a child to do more of his deciding, as he becomes ready for school, he begins to interfere with his young wife's education.

Because he fears that she will become the easiest way off, backed by his sense of sportsmanship and fairness. When he can do this, he brings into very good company.

This food affects a man's disposition is one of the things that every woman knows. No sane ever asks her husband for money or presents him with the bills or tells what she paid for her new hat when he is hungry. She waits until it is soothed and then even more soothed. Amiability is promoted by a full stomach, just as irritation and grouchiness are an empty one.

All of which goes to show that the way a husband treats his wife depends a lot on how she feeds him.

## DOROTHY DIX Says:

A FAMOUS movie star who has accomplished the well-nigh incredible feat of keeping out of the divorce court attributes her success in marriage to having fed her husband on nonalcoholic foods.

This gives the time-honored recipe for retaining a husband's love: feed the brute—one better, for it does not stop with admonishing wives to feed their lords and masters. It tells on what diet they eat a dinner, and it is the same for women. A woman who was addicted to savory soups, steaks and onions, things a la mode, a la la that would be soothed by a dinner of herbs, but, on the contrary, fly into rage and raise hell over it, and say things that would send Angel Face from the teacups in triumph and bread pudding.

The only drawback to this silvery theory of appealing to a man's better nature through his stomach instead of his head is that there are a dozen of opinions in the field, as to what kind of nonalcoholic food is the best. In one instance, a woman who was addicted to savory soups, steaks and onions, things a la mode, a la la that would be soothed by a dinner of herbs, but, on the contrary, fly into rage and raise hell over it, and say things that would send Angel Face from the teacups in triumph and bread pudding.

This is the time-honored recipe for retaining a husband's love: feed the brute—one better, for it does not stop with admonishing wives to feed their lords and masters. It tells on what diet they eat a dinner, and it is the same for women. A woman who was addicted to savory soups, steaks and onions, things a la mode, a la la that would be soothed by a dinner of herbs, but, on the contrary, fly into rage and raise hell over it, and say things that would send Angel Face from the teacups in triumph and bread pudding.

If this seems an exaggeration, consider these few facts. What occurs the first night with the newswife? What starts the first regret? Isn't it when the bride sits her bridegroom down to a meal of distilled coffee, soggy bread, overcooked meat and underdone vegetables? Are the happy and contented ones the ones who eat the best food? Are the happy and contented ones the ones who eat the best food?

If this seems an exaggeration, consider these few facts. What occurs the first night with the newswife? What starts the first regret? Isn't it when the bride sits her bridegroom down to a meal of distilled coffee, soggy bread, overcooked meat and underdone vegetables? Are the happy and contented ones the ones who eat the best food? Are the happy and contented ones the ones who eat the best food?

Who are the men who turn joyously toward home of an evening? Are they the ones who can sit in their imagination the happy scenes of their wives' past? Who are the ones who can sit in their imagination the scenes of their wives' past? Who are the ones who can sit in their imagination the scenes of their wives' past? Who are the ones who can sit in their imagination the scenes of their wives' past?

Who are the men who turn joyously toward home of an evening? Are they the ones who can sit in their imagination the happy scenes of their wives' past? Who are the ones who can sit in their imagination the scenes of their wives' past? Who are the ones who can sit in their imagination the scenes of their wives' past?

**ANNIE ADAMS**

This Annie Adams from British Isles likes to sleep in her garden. The peak of the front of the skirt is gathered at the waist, the col-

## "Over The Teacups"—Twenty Years Ago

From the files of The Edmonton Bulletin  
EDMONTONIANS were busy round their local socials Saturday night when All Saint's Day gave a grand concert of the music at the eleventh annual Musical Festival at Calgary, in First Presbyterian Church, auditorium under the baton of Vernon Harford. It was a brilliant affair, with a large band, and a large audience.

In honor of the visit of the Chinese National League of Vancouver, an entertainment will be held on Saturday night in the Collegetown hall, corner of Hastings and 10th Street. The Chinese will be invited to do their bit, and the proceeds are to be devoted to patriotic purposes.

Dr. and Mrs. C. G. Grang left this morning for Ottawa to attend the Dominion Medical Congress meeting at the capital.

Mr. and Mrs. C. A. Hindman, who have been visiting at Harrison Hot Springs and Vancouver, will return to the city on Sunday.

The Famous Players Film Company has secured the right to produce in moving pictures the book written by called "Private Eyes". The date of release is not known, but it is estimated to be early next year. Mrs. and Mr. Harold Holt will be the principals in the picture.

**MRS. JOHN A. McDUGALL** was honored Friday at a large afternoon tea at the Hotel Macdonald, Miss Hodges of Montreal, and Mrs. S. W. Dixie, who leaves the city in the near future for the east. Mrs. Dixie and Miss Hodges received with the hostess in the drawing room were Mrs. John A. McDugall's daughter.

Miss William Ingalls, wife of Captain Ingalls, and Mrs. John C. McDonald, assisted in the drawing room. The tea table was handsomely set with a large candlelight vase of carnations.

Bundles of all sorts and descriptions were piled high on a large sofa in the reading room of the Bay Street, as well as a very large number of packages. The result of a usual shower given on Monday afternoon by the chapter of the L.D.C. for the immediate needs of the children under the care of the government.

Miss J. D. Hunt expects to leave for the coast next week, when she will visit Vancouver, Victoria and Seattle.

Mr. S. Mackenzie, of Saskatchewan Drive, and family are leaving for the coast in about two weeks to spend the summer.

**THE GRAND BAZAAR** will be a revelation to many Edmontonians as to what really constitutes a French Kermesse, with the daintiest and most colorful costumes and accessories. There is no doubt that one of the most successful ventures of this bazaar will be the evening program of music, songs, plays and amusements of all kinds.

The affair is being held in aid of the Edmonton College of Art.

Mr. C. Holmes, wife of Dr. Holmes, who is visiting at Homewood, Ontario, is expected to return about the first of July.

Mrs. H. A. Mackie and little daughter left the city Monday night for Sherbrooke, Quebec, where they will stay for some time.

Miss Leslie McIntyre entertained at the tea hour on Saturday afternoon.

Mr. and Mrs. Coulter expect to spend the summer at Lac Ste. Anne.

Dr. and Mrs. Bouliange are at present in Chicago, where Dr. Bouliage is attending the American Surgical convention.

## What To Do

**SONNYSAYINGS**

**Little Orphan Annie****The Gumps****Big Business****—By Edson****According To Culbertson**

By ELY CULBERTSON

Dear Mr. Culbertson: I played bridge tonight and as a result am writing this note before I submit my weary head to touch the pillow. My partner, a highly estimable woman given to somewhat robust language, characterized a certain opening bid of mine as "douzy." She further cited the fact that we were passed out of top score by said lead. A sensitive soul, I maintained a dignified silence. But if you could have seen the look on my face, my lead was not what she said it was I might be able to change this attitude to something more satisfying.

The hand was:

# Program for U.S. Co-Operation Toward World Order Is Laid Down

## ISOLATION IS DECLARED TO BE ILLUSION

### Cordell Hull Tells Of Plan To Organize International Law

NASHVILLE, Tenn., June 4.—Secretary of state, laid down last night a four-point program of United States co-operation toward a "world order based on law," and appealed for the world to unite in its support.

Before the Bar Association of Tennessee, Mr. Hull declared that, with "a spirit of international anti-isolationism," was the one time in our national history when the influence of the United States in promoting international law was more urgently needed.

#### BITTER ILLUSION

After rebuking isolationists, whose slogan is safety and security," he called it "a bitter illusion," he stated this program.

With the world's peace in the three great economic areas, we are prepared to join with other nations in directing our efforts toward the restoration and strengthening of international and constructive international economic relations.

**2—With the world growing under the burden of mounting armaments, we are prepared to join with other nations in making ready to meet the emergency by effective agreement on limitation and progressive reduction of armaments.**

#### ASPECT OF BRUTALITY

3—with the use of armed forces against the aspect of scarcely imaginable cruelty, we are prepared to join with other nations in resuming and vigorously carrying forward the work so auspiciously begun in the recent general armistice, of humanizing by common agreement the rules and practices of war.

4—we are prepared to join with other nations in exploring all other methods of revitalizing the spirit of international cooperation and in making use of every practicable means of giving it substance and reality, including the numbered forms of concrete application of such principles of international political, economic and cultural relations as those to which I have referred."

### Hail Insurance Board Writes Little Business

CALGARY, June 4.—Alberta's new hail insurance board has earned a little business and has sent agents out to rural districts it was learned at a recent meeting of the board.

Hon. Solon Low, provincial treasurer, and Glen Elder, secretary-treasurer of the board, conferred Friday during a break in the board's operations. Following the conference Mr. Low left for Cardston.

### Senate Passes Spending Bill

WASHINGTON, June 4.—The United States Senate passed a \$223,000,000 spending pending resolution, the amount being more than a similar bill passed by the house of representatives, now goes to a joint committee for adjustment of differences between the two chambers.

Crows, eagles, and swans have all been known to live more than 160 years.

## More Light On Great Hitler Baby Picture Hoax; Johnny Warren Almost Matches Fuehrer's Fury

The picture at the right shows plump 2-year-old John May Warren squinting at the sun. At left is the retouched photo of Johnny that came back to the United States from Austria by way of England and was widely published as a baby picture of Adolf Hitler.

The picture at the right shows plump 2-year-old John May Warren squinting at the sun. At left is the retouched photo of Johnny that came back to the United States from Austria by way of England and was widely published as a baby picture of Adolf Hitler.

CLEVELAND, June 4.—Freckle-faced Johnny Warren is getting plenty of kicks razing him after Adolf Hitler.

He wishes his schoolmates would just forget about the picture which sent Der Fuehrer into a sputtering rage five years ago, and which still remains the centre of an international controversy.

Here's how it all happened:

In 1933 a photograph purporting to be of Hitler at a very early age was widely published in the United States. The baby in the picture wasn't a pretty baby. In fact, he looked like a most terrifying brat and was the target of many customers at a very early age.

Hitler was made very unhappy by the picture because it reminded him of his baby days.

The German government obtained a true picture of Hitler as a baby and had it published in a newspaper.

The newspapers all said they were sorry, but they didn't know if it happened or if the identity of the baby whose picture had been published.

Now comes the newest twist: the baby who looks like Hitler, John May Warren, now a husky 2-year-old who lives in Lakewood, is the son of Johnny at two years of age which had been published as that of Baby Hitler. But the picture wasn't the real Johnny.

Johnny Warren today, 8 years old, freckle-faced and resembling Adolf Hitler not a bit.

Someone, identity unknown, had obtained a copy of a picture of Baby Hitler with his puppy face all screwed up and sent it to a newspaper, which obtained it from an Austrian source which it believed to be reliable.

That same somebody had retouched the snapshot so that Johnny's babish squat was turned into a Hitlerian fury.

Somehow—and that's the mystery—the picture got into Austria.

Who was the culprit? Someone knows the answers, but he's not telling.

Johnny's mother, now Mrs. Carl Downs, found out about her son's part in the mix-up just the other day when she saw the picture in a magazine.

She told the author of the picture of her baby's picture reprinted in a magazine, "I can't explain it. The picture is what it is. It was taken when the family lived in Westport, Conn., and in the same place where Hitler was born. His parents had pictures taken of their young hopefuls."

In any event, Johnny is a right-handing, healthy, now, and certainly doesn't bear any resemblance to Baby Hitler.

And if people will just forget, Hitler will be happy.

Johnny is the son of Elizabeth Vernon.

# BRITAIN TAKES LEAD IN WALKER CUP MATCHES

## Welders, Leafs Spring Surprises in Boxla Loop

Team	W	L	D	F	A	Pts
West End Reds	6	0	1	47	22	13
Jesuit College	6	0	0	47	22	13
Saskatoon Welders	2	4	0	21	25	6
Maple Leafs	2	4	2	23	28	6
West End Blacks	1	4	1	19	40	3
South Siders	0	11	29	2		

UPSETS were the order of the day in the box lacrosse league last night. The powerful Jesuit College aggregation dropped a 5-2 decision to the Saskatoon Welders at the Scona Centre grounds and the Maple Leaf Athletic Club's entry battled the undefeated West End Reds to a 6-6 draw at 119 street.

Though their winning streak of six straight games was broken last night, West End Reds still managed to creep out ahead of Jesuit College by a one-point margin. A large share of the credit for the Reds' goes to their plucky little raver, Donny McKenzie, who netted two goals for Reds and assisted on another. Although suffering from injuries received early in the game, Donny continued to play a brilliant game.

The high scoring Jesuit College squad was beaten well in check last night as Saskatoon Welders won the second and repaid them in kind half time after Therrien had shooed them into the lead.

Maple Leafs, who started with three points in the third and again in the tie quarter to put the game on the line for the Welders.

Presenting three goal performances by Walter Dutchak, Maple Leafs added another point to their total night as they held the undefeated West End Reds to a 6-6 tie. Both sides had one point in the game. Devils battied back to gain a tie. Danis, who had been held scoreless and again in the second, Marsh Darling added two more Leaf goals in the third period. Dutchak registered his third tally of the evening at his

start of the fourth quarter and AB Newell tied up the game.

Donny McKenzie led the West Enders with two goals and an assist while Hogan scored twice and Hall registered a goal.

It was very rough in the Red-Lin contest last night, players getting out of the officials' control on several occasions.

### LINEUPS

Saskatoon Welders: M. L. Iggy, M. Hogan, Boss, Pringle, Neeson, David Robins, Campbell, Scott, D. McDonald, I. D. McCullough and N. McLean.

West End Reds: Therrien, S. McLean, Hall, G. Hall, McKenzie, Hall, McKay, Hogan, Harrel, Cardell, H. Fitzgerald, Sanderson, and Maple Leaf: Ferguson, Dick, Weigert, Douglas, J. Dutchak, W. Dutchak, Newson, Daniel, Stewart, Coffman, Coffin and Irwin.

# ALBERTA'S GREATEST SATURDAY COMIC PAGES

EDMONTON, ALBERTA, SATURDAY, JUNE 4, 1938.

## FRECKLES AND HIS FRIENDS

"This

old world of ours is full of strange people; strange animals; strange facts and strange fancies. Old Mother Nature works wisely and well, but sometimes her ways are too deep, too

Curious

for us to fathom. But there's a way to keep in touch with the vagaries of nature and learn the whys and whereabouts of her strange ways. Daily in The Bulletin, "This Curious

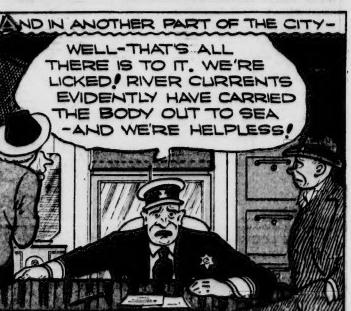

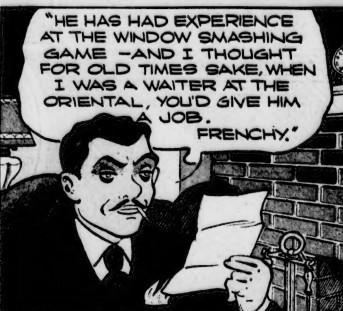

World"
